-

PROFESSIONAL EXPERIENCE

Freelance and Consultant in Broadcast Media

Freelance: **1997 – Present**

- Freelancer for camera, lighting and engineering for various corporations and organizations.
- Camera experience for studios and remote locations
- Experienced with setup and operating of various camera systems: handheld, studio, Jib and dollies.
- Experienced lighting various types of venues from small to large.
Ex: Lighting for a photo shoot of an individual or marking points for rigging motors and flying truss for a convention.

Consulting:

- Consulting with small to medium sized organizations about their vision and working with them to establish a plan for growth or expansion.
- I accomplish this through installing lighting grids or new fixtures, re-lighting the current venue for maximum efficiency and teaching staff or volunteers with hands on training or writing manuals for their specific equipment.
